

# Poultry Vits AA

Complete vitamin and amino acid profile

## Maximises production

To support consistent egg production, growth rates and FCE

## Immunity support

Helps maintain health under stressful conditions

## Optimises feed conversion

For maximum growth rates from minimum feed

## Minimises the effects of stress from:

Handling	Vaccination	Change of feed
Transportation	Medication	De-beaking
Overcrowding	Disease	Infection
Hot conditions	Diarrhoea	Dehydration

## Benefits of feeding a liquid:

- Very cost effective
- Guaranteed intake levels
- Keep feeding regime the same
- Easy to administer
- Quick acting = fast results
- No stress

# Poultry Vits AA

## Complete vitamin and amino acid profile

## Analysis

Vitamin A	Vitamin D3	Vitamin E
4,000,000 iu/kg	1,000,000 iu/kg	6,000 iu/kg
Vitamin B1	Vitamin B2	Vitamin B6
400 mg/kg	800mg/kg	800 mg/kg
Vitamin C	Vitamin K	Pantothenic Acid
16,000 mg/kg	6,000 mg/kg	3,000 mg/kg

## Notes

- Available in: 1 litre bottles
- Minimum treatment periods required due to high concentration of liquid
- It is recommended to use via a "dosatron" pump or other in-line water application
- Store in a cool dry place and avoid direct contact with sunlight
- User must ensure precise mixing and accurate administration

**Dosage Guide:** 0.1% inclusion - 100 ml/1000 lts or as per veterinary advice for 5 - 7 days. For maintenance or preventative measures feed for the first 7 days of every calendar month. Feed continuously for 4 weeks before all point-of-lay hens. Feed to brooding chicks for first 5 days.

Contains all essential & non-essential amino acids

Provides an excellent source of digestible protein & amino acid profile. Eliminates first limiting factor of amino acids for maximum production.

Vitamin B complex

Supports the proper function of nervous system – helping to keep stress to minimum. Helps support liver and energy production to optimise energy conversion.

Vitamin C and A

Helps support growth rates, wound healing and stimulates an improved resistance to infections.

Vitamin E and K

Required for bone calcification and mineralisation. Aids the prevention of gizzard erosion and increased bruising.
