

# Quick Serve Tubby

Enhancing fertility for easier stock management

## Tightens calving period

Easier management from a pronounced, prolonged heat period

## Energy utilisation

Energy is a key requirement to fertility

## Supports a healthy immune system

Optimises production and performance

**Weight:** 14kg

**Feeding rate:** 14kg tub per 5 cows for 6 weeks  
(approx. intake of 66g/hd/day)

**Suitability:** Any cows or heifers when bulling is sluggish or when calving needs tightening up

**EST. days worth:** 212

**EST. price per head/day:** \$0.64

6.50% Calcium  
5.00% Phosphorus  
5.00% Magnesium  
6.75% Sodium  
1,500mg/kg Iodine  
95mg/kg Cobalt  
3,000mg/kg Copper  
500mg/kg Protected Copper  
9,000mg/kg Manganese  
1,500mg/kg Protected Manganese  
6,800mg/kg Zinc  
750mg/kg Protected Zinc  
50mg/kg Selenium  
800,000iu/kg Vit A  
160,000iu/kg Vit D3  
4000iu/kg Vit E  
300 mg/kg Vit B1  
250mg/kg Vit B2  
2,500mcg/kg Vit B12

Features	Benefits
Contains Orvec Stimulus	Helps pronounce and prolong the heat period which reduces the risk of silent heats.
High levels of phosphorus and chelated copper	Aids fertility and helps maintain healthy milk yield.
High levels of manganese and zinc from a chelated source	Helps improve conception rates, develop reproductive organs and create the correct pH in the reproductive tract.
Contains Seaweed	Provides a wide and natural source of essential trace elements and nutrients
Contains B-Carotene	Increases ovulation rates and heat expression, raises progesterone levels, which in turn reduces embryo mortality rates

**Notes:**
